TIMMY tidies up
Hi!
My name is Marco Teubner. I am a cultural scientist and for over 15 years I have been a professional game designer. I live with my wife and our three children in Upper Bavaria. Most of the games I design are for children. I love playing with children. In games we can live out fantasies, can try things out and learn to get to grips with the world while at the same time having fun and enjoyment. ‘Timmy tidies up’ was one of the first games I designed for children. At this age, children are very exciting and wonderful and I hope that with this game we can join in with them.

Have fun, Marco Teubner

- 6 game board sections
- 18 objects
- 1 ‘Timmy’ figure
- 6 wooden chips
- 1 colour die
What a mess! Someone has messed everything up. Nothing is where it should be any more. Wait until mummy and daddy see this! We have to tidy this up as fast as we can. But what goes where? Thank goodness our little friend Timmy is going to help us tidy up! The rubber duck definitely doesn’t go on the breakfast table, does it?
1. Put out all the game board sections in any order in a circle.

2. Put all the objects picture-side up in the middle of the circle and put Timmy in there with them.

3. Then get the 6 wooden chips and the colour die out ready to use.
The aim of the game is to take all the objects from the centre of the circle and get them all back in their right places together with Timmy’s help.

The game is played in a clockwise direction. The last one of you who tidied up starts the game.

When it is your turn, you cast the die. Put Timmy on the game board section which has the same colour around the edge. Now, see if you can find an object in the middle of the circle that goes in this place. Check if the object fits into one of the three notches. If you throw the die and get a section which has already been tidied up, you can move Timmy to any other place you like.

**The object doesn’t fit?**

Then you must have made a mistake. Put the object back with the other objects in the middle of the circle. Then it is the next player’s turn.

**The object fits?**

Super! You have tidied up one object. Then it is the next player’s turn. Important: 3 objects belong in each place. If you put in the last of the 3 objects, then that place is cleaned up and you can take a wooden chip.
The game is over when there are no more objects left in the middle of the circle. With Timmy’s help, you have tidied everything up! Whoever has got the most wooden chips is the winner.
At the start of the game, put all the objects picture-side down in the middle of the circle. Now you can only recognise the objects by their shapes. Can you still get all the objects back in their right places together with Timmy’s help?

Have lots of fun playing and tidying up,

TIMMY
Our joyful games are available in the four colors: **green**, **blue**, **yellow** and **red**. Each color refers to a specific age of your child. This is an overview of our color coding:

- **3+** Games for the Little Ones
- **4+** Rules Can Be Fun
- **5+** I Can Play This on My Own
- **6+** Even Mom and Dad Can Have Fun with This

"For every age the right game!" - that is our motto!
