TREASURE MAP

50 brainy puzzles for 1 player ages 8 and up
by Reiner Knizia

INSTRUCTIONS

SCHATZKARTE

Die deutsche Anleitung findest du auf der anderen Seite dieses Heftes.
What’s it about?
It is not as easy as it might seem at first glance to lay out the perfect Treasure Map – and it is even harder if you have to do it by following strict instructions. Will you manage to find the perfect Treasure Map tiles to finish all the tasks laid out before you?

What’s inside?

25 Puzzle sheets - double-sided

8 Treasure Map tiles

1 booklet with First Hints and Solutions

this booklet with instructions
How does it work?

Choose 1 of the 50 puzzles from the Puzzle sheets and put it in front of you. Take the 8 Treasure Map tiles and hold them ready. Now you can start.

You try to fill each empty space on the Puzzle sheet with a Treasure Map tile in such a way that all the Tasks on the Puzzle sheet are fulfilled. You may adjust the orientation of a tile in any direction.

Each puzzle has exactly one solution. The puzzles are designed in such a way that smart deduction will lead to the solution much quicker than trial and error.

Easy or Hard?

We recommend solving the puzzles in their numerical order as they are divided into varying levels of difficulty:

1-10: Warm up
11-20: Hazardous paths
21-30: Treacherous terrain
31-40: For Experts only
41-50: Ultimate challenges
The Tasks

This path has to lead across the lake **in the direction of the arrow**. Take note: The arrow direction is of no importance for the fulfillment of all other tasks, when a path is leading across the lake.

This path has to pass by the **treasure chest**.

This path has to lead to a **red cross**. Take note: The paths **end** at the red crosses!

This path has to go through **exactly** this amount of **villages** (hut symbol).

This path has to go through **exactly** this amount of **Treasure Map tiles**. A tile can count **multiple times** if the path crosses this tile **multiple times**.

Each same-colored **pair** of such **symbols** has to be **connected** by a path.

Example

[Map with arrows and symbols indicating tasks]
Hints and Solutions
Should you ever lose your way, we will gladly help you to get back on the path! Just have the First Hints and Solutions booklet to hand:

- Reading it with the “First Hints” side up, you can find a first hint for all the puzzles numbered 2 to 50. Each hint shows the correct placement and orientation of exactly 1 Treasure Map tile on its Puzzle sheet.
- Reading it with the “Solutions” side up, you have the complete solution to each and every Puzzle sheet.

We hope you will have lots of fun sharpening your mind with these Treasure Maps. Should you ever be in doubt on your path, just take heed of this Proverb:

Not all treasure is silver and gold.
